EXPERIENCE

AUG 2024 – JAN 2026

React, Django, Django rest API, JWT token

I have been actively learning and building projects using the Django–React full stack for the past one year. Over the past one year, I have been continuously learning and practicing full stack development with Django for backend and React for frontend.

EDUCATION

MSK Institute | Full stack

Learning backend and frontend development from the last one and a half years.

COMMUNICATION

Strong verbal and written communication skills, with the ability to clearly explain technical concepts to both technical and non-technical audiences.

PROJECT

- Developed a full stack portfolio website using **Django (backend)** and **React (frontend)**.
- Built and integrated **RESTful APIs** using Django REST Framework.
- Implemented **dynamic frontend components** with React for a smooth user experience.
- Designed **responsive UI** ensuring compatibility across devices.
- Connected backend with frontend using **API integration (Axios / Fetch)**.
- Managed data using **Django models and database relationships**.
- Implemented **CRUD functionality** for dynamic content management.
- Focused on **clean code, scalability, and performance optimization**.
